Which client holds the profit opportunity

Sample company. These aren't your numbers.

A year. Each bar is one client's modeled profit opportunity. A blank stays off. A loss stays off. A known zero stays on. The longest bar holds the most. Nothing here posts.

Each bar is the modeled profit opportunity a year on that client's example books. The file calls it a five-year starting point, not a guarantee. A client who has not shared stays off. A removed client stays off. A blank stays off. A loss stays off. A known zero stays on the chart. Two clients with the same name stay apart. The longest bar holds the most. The chart shows the eight largest. The rest stay on the list. Nothing posts.

Clients

Client	Opportunity
