Who completed the to-dos

Last 13 weeks. Each bar is how many to-dos one person completed. A to-do that is still open stays off. A to-do outside this window stays off. A to-do with no owner is Unassigned. A known zero stays on. The longest bar holds the most. The list itself does not change.

Each bar is the to-dos that person completed in the last 13 weeks. A to-do that is still open stays off. A to-do outside this window stays off. A to-do with no owner is Unassigned. The same name, spelled differently, is one bar. A person on the team with none completed stays on at zero. A search does not change this chart. The longest bar holds the most. The chart shows the eight largest. The rest stay on the list.

Nothing here posts.

3 more people stay on the list.

Completed to-dos

Person	Completed
